Using Data from the
USDA Nationwide Food Surveys

Prepared by:

U.S. Department of Agriculture Agricultural Research Service Beltsville Human Nutrition Research Center Food Surveys Research Group 10300 Baltimore Ave., Bldg. 005 Beltsville, MD 20705

March 2000

This is a list, presented alphabetically by year of publication, of over 630 journal articles, bulletins, book chapters, and Ph.D. dissertations that use data from the U.S. Department of Agriculture's Nationwide Food Surveys. This is not an exhaustive list; it includes only those materials of which we are aware. If you know of additional articles for inclusion in this list we would appreciate a copy. PLEASE SEND TO DR. MARY Y. HAMA AT THE ADDRESS ON THE FRONT OR E-MAIL INFORMATION TO: mhama@rbhnrc.usda.gov.

Articles mentioned in this bibliography should be ordered from your library or directly from the author.

Excluded from this bibliography are formal survey reports published by the USDA and data sets containing survey microdata. For information on reports and data sets see the fact sheets for each specific survey.
